

# Drawbridge - Onboarding Questionnaire

This brief questionnaire will help us get to know your background and end goal in getting on-boarded on Knowledge Graphs regarding exploration, creation and visualization.

\* Indicates required question

---

1. Please enter an email address for your result to be received. We will not share or otherwise use the e-mail address, and it will be deleted after sending.

---

2. What is your primary role, or what environment are you primarily in? \*

*Mark only one oval.*

- ☐ Student / Academic Researcher
- ☐ Software Engineer / Industry Scientist
- ☐ Teacher/Trainer
- ☐ Executive/Decision Maker

3. Which statement matches your current KG knowledge?

*Mark only one oval.*

- ☐ I'm new to KGs and want to see if they help my project.
- ☐ I've dabbled in RDF or SPARQL, but I want to go deeper.
- ☐ I'm comfortable, and I need to standardize or train a team.
- ☐ I'm mostly concerned about the benefits, ROI, or strategic value.

4. Why do you think you need Knowledge Graphs? \*

*Mark only one oval.*

- ☐ Required for research/thesis/dissertation.
- ☐ To upskill the current data science/Information Storage and Retrieval toolbox.
- ☐ To explore if it's more efficient than spreadsheets/databases.
- ☐ To influence or train others to adopt it.

5. What describes how you'll use a Knowledge Graph?

*Mark only one oval.*

- ☐ Coding/building/deploying it for a project.
- ☐ For conceptual exploration: modeling vocabularies or ontologies.
- ☐ Bridging research or advanced data science with a KG approach.
- ☐ Showcase executives/customers/stakeholders the benefits to gain buy-in.

6. Have you taken a formal Introduction to Logics course (or equivalent)? \*

*Mark only one oval.*

- ☐ Yes
- ☐ No

7. What is your biggest immediate challenge? \*

*Mark only one oval.*

- ☐ Finding time to learn fundamentals quickly (a busy student/researcher?).
- ☐ Integrating or deploying KGs with real code.
- ☐ Documenting or standardizing best practices.
- ☐ Justifying an investment or project direction.

8. How do you approach teaching or facilitating Knowledge Graphs? \*

*Mark only one oval.*

- ☐ I don't teach; I'm a user/learner.
- ☐ I develop structured curricula or formal courses.
- ☐ I build resources, FAQs, or how-to guides.
- ☐ I train or guide user groups to use the KG effectively.

9. How would you describe your involvement in high-level decisions? \*

*Mark only one oval.*

- ☐ Minimal—More focus on own/small research or tasks.
- ☐ I consult or advise leadership on the pros/cons of KGs.
- ☐ I am part of leadership or influence budgets and tech direction.
- ☐ I engage external parties or supply chain partners in seeing the bigger picture.

10. Which scenario is most relevant to you? \*

*Mark only one oval.*

- ☐ I'm translating complex domain knowledge into an ontology or vocabulary.
- ☐ I'm building or validating a secure or specialized KG environment.
- ☐ I'm bridging knowledge graph technology with advanced data and machine learning research.
- ☐ I'm creating a digital model vision for executives or an enterprise.

11. What style of learning or working do you prefer? \*

*Mark only one oval.*

- ☐ Quick visual demos, hands-on examples, or one step at a time.
- ☐ Systematic, from theoretical underpinnings (logic, set theory) to practice.
- ☐ Team-based approach: Gather input from many to standardize solutions.
- ☐ Strategic or outcome-driven approach for broader impact.

12. Select the statement that would describe your Knowledge Graph involvement in one phrase. \*

*Mark only one oval.*

- ☐ I'm diving in to see how it can help my personal or research tasks.
- ☐ I'm building or coding real-world solutions with KGs.
- ☐ I'm training or supporting others (educators, user groups, or building resources).
- ☐ I'm focusing on strategic, executive, or specialized domain adoption.
